1. THE MAIN POSITION OF THE STUDENT CLUB

SUSTAINABLE DEVELOPMENT-is a student club that will develop the university community and technologies that contribute to improving the quality of human life, preventing negative impacts on ecosystems and the environment.

The global educational world, innovative ideas are in the hands of young professionals and educated and qualified students.

Issues such as the complex of economic, social, environmental and applied problems require non-standard, specific approaches.

The only organization that directly deals with such issues at our university is the **SUSTAINABLE DEVELOPMENT Club**.

2. CLUB RULES:

1. A student enrolled in the organization must be hardworking, honest and maintain academic integrity.
2. All members of the organization must participate together in the organization of the event, which is carried out according to the organization's plan.
3. Environmental protection and creation of a clean ecosystem.
4. Saving water sources and alternative energy resources.
5. Sincerely contribute to the sustainable development of our University.
6. One for all, all for one

3. THE CLUB'S POSITION:

1. "Love the world around you!"
2. "Understanding the world around us is one of the most important tasks that a person sets for himself"

4. THE PURPOSE OF THE CLUB:

1. To give students the opportunity to develop and achieve their goals.
2. To contribute to the formation of the developing youth.
3. Establishing relationships between various developing people and the developing environment.
4. Organization of numerous trainings and interviews, meetings and podcasts in various fields 17 Sustainable Development Goals.
5. Implementing its plans for energy efficiency, saving water, electricity, waste disposal and creating a "Sustainable ecosystem" for an energy-intensive economy through the implementation of measures.
6. Providing natural systems, people, necessary natural resources and ecosystem services.
7. To contribute to the development of the ecosystem of our University.
8. Work directly with the infrastructure of our University.

5. OBJECTIVES OF THE CLUB:

1. To contribute to the comprehensive development of the internal and external system of our University by working towards the 17th Sustainable Development Goal

2. To promote the development of individual characteristics of students.
(work on the cognitive interests and abilities, inclinations of each student).
3. To ensure social self-determination and cultural diversity and contribute to the preservation of the integrity of the environment.
4. Realization of the goal of conservation and greening of the ecosystem world at the University.
5. Turning our University into a green campus.

6. THE MAIN DIRECTIONS OF THE CLUB FOR THE 17 SUSTAINABLE DEVELOPMENT GOALS:

1. Poverty eradication
2. Elimination of hunger
3. Healthy lifestyle and well-being
4. Quality education for all
5. Gender equality
6. Clean water and sanitation
7. Low-cost and "clean" energy
8. Decent work and economic growth
9. Infrastructure development, innovation
10. Reducing inequality
11. Sustainable cities and human settlements
12. Responsible consumption and production
13. Combating climate change and its consequences
14. Conservation of marine ecosystems
15. Conservation of terrestrial ecosystems
16. Peace, justice and effective institutions
17. Partnership for sustainable Development

7. THE BASIC PRINCIPLES OF THE SUSTAINABLE DEVELOPMENT CLUB

The principles of sustainable development should be the basis of all functions of the University:

1. Building the University's activities according to the principles.
2. Creating conditions for students and University staff.
3. Work with knowledgeable and qualified students. Formation of high-quality education among students. Participation in projects on environmental protection and sustainability, implementation of scientific projects on work in laboratories.
4. Establishment and development of partnership programs and cooperation with other Universities.

8. THE PRINCIPLES OF THE INFRASTRUCTURE CLUB:

1. Sustainable management of infrastructure and the environment.
2. Provide for the use of energy-saving equipment and technologies.
3. The use of alternative sources and types of energy.
4. Increasing the level of informatization, the formation of a social culture and the establishment of responsibility in the field of sustainable development of society.
5. Energy efficiency improvement, improvement and further greening of the campus through the introduction of the latest achievements of science and technology.
6. Large use of clean water devices, placement in educational buildings.
7. Separate collection and disposal of waste.

9. GLOBAL AND ENVIRONMENTAL PRINCIPLES OF THE CLUB:

1. Green energy and resource conservation as part of the creation of START-UP projects.
2. Efficient use of environmental resources, energy, and technologies.
3. Development of innovative technologies.
4. Environmental protection.
5. Ensuring sustainable development using environmental knowledge and education, environmental and ethical values, and norms of behavior.
