2	2. OPTIONAL COMPONENTS OF THE CYCLE OF MAJOR COURSES .....	5

## 1. OPTIONAL COMPONENTS OF THE CYCLE OF CORE COURSES

### *Optional component 1*

**Course: Modelling and forecasting in sociological research**

*Intensity of the Course:* 5 academic credits

*Module Code:* FMSR - 2

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* No

*Purpose:* Study of methodological and organizational approaches to the construction and functioning of a forecasting system, design and modeling of social phenomena and processes, in particular, in the field of sociology.

*Short Description:* The course is aimed at studying modeling and forecasting in scientific research, which began to be applied in ancient times and gradually captured new areas of scientific knowledge. The 20th century brought great success and recognition to the modeling method in almost all branches of modern science. The method of modeling and forecasting determines specific forms of using abstractions, analogies, hypotheses, other categories and methods of cognition.

*Learning Outcomes in EP (LOP):*

LOP 1 - Predicts social phenomena and processes to identify socially significant problems and develop solutions based on the use of scientific theories, concepts, approaches and social technologies

*Learning Outcomes in Course (LOC):*

LOC 1 - to familiarize undergraduates with the patterns and features of the formation and development of the forecasting mechanism, design and modeling of social phenomena and processes in Kazakhstani society;

LOC 2 - analyze and comprehend modeling methods, in forecasting and design processes

LOC 3 - promote the mastery of scientific tools by undergraduates through the creative application of the foundations of forecasting, design and modeling of social phenomena and processes.

LOC 4 - to provide undergraduates with the opportunity to study the mechanisms of forecasting, design and modeling in the field of sociology.

*Post requisites:* RTSI 5303 Development of the theory of social change.

### *Optional component 1*

**Course: Focus groups as a method of applied sociological research**

*Intensity of the Course:* 5 academic credits

*Module Code:* FMSR - 2

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* no

*Purpose:* Obtaining a general understanding of the possibilities of the method of collecting social and marketing information using focus groups and acquiring knowledge and skills in organizing, conducting, analyzing the information collected.

*Short Description:* Acquisition of competencies, skills in organizing, conducting a focus group, analyzing the collected information. This is useful for those undergraduates who, in their future activities, will face the need to organize focus groups, conduct them independently, and also analyze the results obtained by this method.

*Learning Outcomes in EP (LOP):*

LOP 1 - Has research and digital skills for conducting basic and applied sociological research

*Learning Outcomes in Course (LOC):*

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

LOC 1 - social and socio-psychological processes and interactions occurring in the course of focus groups; basic principles and concepts of the methodology of qualitative sociological research;

LOC 2 - set and understand tasks that can be solved using the focus group method;

LOC 3 - plan and organize the collection of the necessary social information using the focus group method;

LOC 4 - have the skills to prepare and conduct a focus group research.

*Post requisites:* TDTSC 5303 The development of the theory of social change

*Optional component 2*

**Course: Methodology and technology of scientific research**

*Intensity of the Course:* 5 academic credits

*Module Code:* **FMSR - 2**

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* no

*Purpose:* promoting the formation of undergraduates' ideas about the methodology and methods of psychological and pedagogical research, the formation of research competence and their willingness to apply the knowledge and skills acquired in organizing their own scientific research and organizing research work in their professional activities.

*Short Description:* The course is focused on the study of methods, technologies and practical recommendations in the study of problems of society. The main direction in the study of sociology is the institution of the family and the category of people in need of social assistance.

*Learning Outcomes in EP (LOP):*

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting.

*Learning Outcomes in Course (LOC):*

LOC 1 - theoretical and methodological foundations of the chosen direction of scientific research;

LOC 2 - to plan research activities in the chosen scientific direction under the guidance of a scientific supervisor, using modern research methods and information and communication technologies;

LOC 3 - choose and apply modern methods of scientific research in the relevant field of science;

LOC 4 - possess the skills of searching, collecting, processing, analyzing and systematizing scientific information using information and communication technologies in the relevant field of science.

*Post requisites:* TDTSC 5303 The development of the theory of social change

*Optional component 2*

**Course: Organization and planning of scientific research**

*Intensity of the Course:* 5 academic credits

*Module Code:* **FMSR - 2**

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* no

*Purpose:* To acquaint the undergraduate with the basics of the formation of knowledge and skills in the field of planning and organizing scientific research, to teach the principles and techniques of planning a scientific experiment.

*Short Description:* The basic concepts and principles of experiment planning, correlation and regression methods for analyzing experimental data, drawing up a multivariate experiment plan, statistical processing and analysis of its results are presented.

*Learning Outcomes in EP (LOP):*

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**

**7M03101 - SOCIOLOGY**

Catalog of elective disciplines

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting.

*Learning Outcomes in Course (LOC):*

LOC 1 - studying the principles of planning and organizing scientific research and conducting an experiment, planning the experimental part in the search for optimal conditions;

LOC 2 - the ability to use deeply specialized professional theoretical and practical knowledge for research, freely use modern methods of interpreting experimental research data to solve scientific and practical problems;

LOC 3 - assess the scientific significance and prospects of using research results in the field of production of a particular product

LOC 4 - have the skills to apply the latest advances in technology and technology in their research and development activities

*Post requisites:* TDTSC 5303 The development of the theory of social change

*Optional component 3*

*Course: Sociological theories*

*Intensity of the Course:* 5 academic credits

*Module Code:* FMSR - 2

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* no

*Purpose:* Formation of competencies among undergraduates of a holistic view of the transformation of modern sociological knowledge in the context of the study of modern sociological theories.

*Short Description:* A set of concepts and principles that explain the functioning of sociological structures. The theoretical and methodological teachings of the main representatives of Western sociology play a major role in the system of social and humanitarian knowledge.

*Learning Outcomes in EP (LOP):*

LOP 1 - Uses methods of obtaining and working with information in the professional sphere taking into account modern technologies of the digital economy and information security

*Learning Outcomes in Course (LOC):*

LOC 1 - have an idea of the process of the formation of scientific and sociological knowledge in different historical epochs

LOC 2 - apply different concepts of society development

LOC 3 - evaluate various cultural achievements from the standpoint of various sociological theories

LOC 4 - possess the skills of analyzing social processes, comparing processes occurring in various areas

*Post requisites:* TDTSC 5303 The development of the theory of social change

*Optional component 3*

*Course: Actual problems of modern sociology*

*Intensity of the Course:* 5 academic credits

*Module Code:* FMSR - 2

*Module Name:* **Fundamentals of Sociological research**

*Prerequisites:* no

*Purpose:* Study of the main problems of modern sociology and the cause-and-effect relationships of social phenomena.

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

*Short Description:* In the present period, the relevance of studying the problems of modern sociology and processes that affect the formation of the personality and the whole of Kazakhstani society as a whole has increased. The most acute issue is related to the institution of the family and the problem of youth employment.

*Learning Outcomes in EP (LOP):*

LOP 1 - Predicts social phenomena and processes to identify socially significant problems and develop solutions based on the use of scientific theories, concepts, approaches and social technologies

*Learning Outcomes in Course (LOC):*

LOC 1 - main methodological problems and methods of studying society

LOC 2 - the main processes and factors affecting the social problems of society

LOC 3 - apply the methods of sociology to analyze the situation in modern Kazakhstan and the world.

LOC 4 - master the technology of social science.

*Post requisites:* TDTSC 5303 The development of the theory of social change

## 2. OPTIONAL COMPONENTS OF THE CYCLE OF MAJOR COURSES

### *Optional component 1*

*Course:* **Modern technologies of social survey**

*Intensity of the Course:* 5 academic credits

*Module Code:* **PASPECS - 3**

*Module Name:* **Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* no

*Purpose:* The main goal is to acquaint undergraduates with modern approaches, methods and techniques of applied sociological research, to teach innovative skills for collecting, processing and analyzing empirical information.

*Short Description:* The complication and acceleration of changes in modern society, in the context of modern globalization and the rapid development of the role of the world information network and other conditions, require the use of new methods of social survey technology. These technologies should take into account the rapid change in the social status of the modern generation, as well as the development of other mobile processes. The rapid development of modern computer technology also has a heuristic effect on sociological research.

*Learning Outcomes in EP (LOP):*

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting.

*Learning Outcomes in Course (LOC):*

LOC 1 - the fundamental structure of sociological theory, its main categories, approaches and problems, as well as auxiliary key concepts;

LOC 2 - rules for organizing and conducting a sociological survey, as well as rules for presenting the main scientific results

LOC 3 - use basic sociological concepts and theories as a tool for a sociological survey

LOC 4 - possess the skills of organizing and conducting sociological research.

*Post requisites:* TDTSC 5303 The development of the theory of social change

### *Optional component 2*

*Course:* **Migration problems in the modern world**

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

*Intensity of the Course:* 5 academic credits

*Module Code:* PASPECS - 3

*Module Name:* **Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* MTSS *Modern technologies of social survey*

*Purpose:* To form the key competencies, knowledge, abilities, skills necessary for future professional activities related to the regulation of the migration problem in the modern world among undergraduates.

*Short Description:* This course is an area of knowledge about migration problems, processes and systems, and is also an interdisciplinary research area.

*Learning Outcomes in EP (LOP):*

LOP 1 - Conducts adequate selection and use of modern information and communication technologies for solving professional tasks

*Learning Outcomes in Course (LOC):*

LOC 1 - mastering methodological approaches to the study of migration problems, mechanisms for managing transnational movements;

LOC 2 - study of the most important institutions for regulating migration, principles, methods, directions of regulating world migration flows, the foundations of legal regulation of certain types of migration, with the law and practice of regulating migration in different regions of the world;

LOC 3 - familiarization with the main models of adaptation, the causes of migrant phobia, methods of overcoming them

LOC 4 - mastering the skills of independent analysis of international law and national migration policy applicable to migration.

*Post requisites:* TSSP The system of social partnership

*Optional component2*

*Course:* **Social Bases of Industrial Innovation Technologies**

*Intensity of the Course:* 5 academic credits

*Module Code:* PASPECS - 3

*Module Name:* **Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* MTSS *Modern technologies of social survey*

*Purpose:* To form in undergraduates what innovation means the end result of innovation in the form of a new or improved product sold on the market, a new or improved technological process used in practice.

*Short Description:* This course represents such concepts as: "innovation", "innovation", "innovation process", "scientific and technical innovation", scientific and technical development. The interaction of elements of the national innovation system, the main directions of improving the efficiency of innovation management are analyzed.

*Learning Outcomes in EP (LOP):*

LOP 1 - Uses methods of obtaining and working with information in the professional sphere taking into account modern technologies of the digital economy and information security.

*Learning Outcomes in Course (LOC):*

LOC 1 - mastering methodological approaches to the development of industrial and innovative technologies.

LOC 2 - study of the most important institutions for the regulation of industry, principles, methods, directions of regulation of innovative technologies

LOC 3 - familiarization with the main models of the industry, the sociological foundations of innovative technologies

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

LOC 4 - mastering the skills of improving the technological process.

*Post requisites:* TSSP The system of social partnership

*Optional component 3*

**Course: The development of the theory of social change**

*Intensity of the Course:* 5 academic credits

*Module Code:* PASPECS - 3

*Module Name:* **Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* MTSS *Modern technologies of social survey*

*Purpose:* the formation of undergraduates' scientific ideas about social changes as a set of phenomena and processes of changing the states of social reality, occurring in its spatial and temporal certainty, fixed in the observed and measured differences, the measure of quantitative and qualitative properties and characteristics inherent in these states.

*Short Description:* One of the most general and broadest sociological concepts. Depending on the research paradigm, social change is understood as the transition of a social object from one state to another, a change in the socio-economic formation, a significant modification in the social organization of society, its institutions and social structure, a change in established social patterns of behavior, renewal and growth of the diversity of institutional forms and etc.

*Learning Outcomes in EP (LOP):*

LOP 1 - Uses methods of obtaining and working with information in the professional sphere taking into account modern technologies of the digital economy and information security

*Learning Outcomes in Course (LOC):*

LOC 1 - to form an expanded and theoretically grounded idea of the determinants, content and nature, methods and forms, directions and consequences of social changes among undergraduates;

LOC 2 - to develop undergraduates in the process of performing educational practical tasks the skills of fundamental or applied research of social communities, institutions and processes, public opinion in the context of social changes;

LOC 3 - independently develop proposals and recommendations for solving social problems, as well as develop mechanisms for coordinating the interests of social groups and communities in the context of social changes;

LOC 4 - possess the skills of developing professional proposals and recommendations for solving social problems, as well as developing mechanisms for harmonizing the interests of social groups and communities in the context of social changes.

*Post requisites:* TSSP The system of social partnership

*Optional component 3*

**Course: Change in the picture of the world and Sociology**

*Intensity of the Course:* 5 academic credits

*Module Code:* PASPECS - 3

*Module Name:* **Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* MTSS *Modern technologies of social survey*

*Purpose:* Formation of a system of knowledge among undergraduates about the theoretical and applied aspects of the analysis of everyday sociocultural practices, the foundations of sociological thinking, which makes it possible to form a vision of the structures and layers of everyday life, everyday life as a standardized and normalized section of empirical life.

*Short Description:* At the individual-personal, socio-psychological level, this dominant tendency turned out to be consolidated by a number of typical life-meaning orientations, ideas about fair and unjust,

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

which are characteristic of classical history, classical social intelligence, focusing on such mechanisms as industrialism, rationalism, individualism, economism, democracy that set the main goal to meet the needs of survival, enrichment, enjoyment, ensuring the rights of the individual, the individual for free development.

*Learning Outcomes in EP (LOP):*

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting

*Learning Outcomes in Course (LOC):*

LOC 1 - To form a holistic understanding of the main approaches to the study of the sociology of everyday life

LOC 2 - Introduce the main types of structures of everyday life in modern Kazakhstan

LOC 3 - Describe the features of everyday life of carriers of different cultures, ethnic groups, confessions, social groups

LOC 4 - using fundamental sociological knowledge in practice, to describe and explain events and processes.

*Post requisites:* TSSP The system of social partnership

*Optional component 4*

**Course: The role of Big Data in managing social problems**

*Intensity of the Course:* 5 academic credits

*Module Code:* PASPECS - 3

**Module Name: Professional assessment of social phenomena and ethical communication in sociology**

*Prerequisites:* no

*Purpose:* preparation of masters in the program "Social technologies of modern management", expands the knowledge about the directions of using social technologies for solving managerial problems, obtained in the course of mastering the disciplines.

*Short Description:* Formation of professional competence among undergraduates in the development and use of systems for processing and analyzing large data arrays. This goal correlates with the goal of the educational program, in particular, with technologies for the development of specialized software systems responsible for processing big data.

*Learning Outcomes in EP (LOP):*

LOP 1 - Conducts adequate selection and use of modern information and communication technologies for solving professional tasks

*Learning Outcomes in Course (LOC):*

LOC 1 - apply modern methods of collecting, analyzing and interpreting complex social information, modern methods of sociological research to solve marketing problems of companies and develop effective management decisions;

LOC 2 - develop practical recommendations and proposals for solving urgent social problems, taking into account the characteristics of subjects and environmental factors, incl. related to the transformation of consumer behavior and practices;

LOC 3 - select existing social technologies (study, attract, retain consumers), etc .;

LOC 4 - possess the skills of applying the latest advances in technology and technology in their research and development activities.

*Post requisites:*no

*Optional component 4*

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

*Course: "XXI c. Sociological issues of social development of the world"*

*Intensity of the Course: 5 academic credits*

*Module Code: PASPECS - 3*

*Module Name: Professional assessment of social phenomena and ethical communication in sociology*

*Prerequisites: MTSS Modern technologies of social survey*

*Purpose:* This course can be viewed as a kind of continuation of the understanding of the logic of the development of world sociology, its theoretical traditions, directions, development prospects.

*Short Description:* Social issues and situations that directly or indirectly affect a person or a significant number of community members are serious enough problems that require collective efforts to overcome them. The main problems of the development of society in the XXI century. are widely covered in this course.

*Learning Outcomes in EP (LOP):*

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting.

*Learning Outcomes in Course (LOC):*

LOC 1 - directions, theories, schools and approaches in modern theoretical and empirical sociology, to trace their interconnection and continuity, to navigate the current situation and have an idea of epistemological problems in modern sociology; know the content of the works of leading modern foreign and Kazakh sociologists

LOC 2 - to form, verbally and in writing to present ideas and to defend their own position in arguments on various problems of the development of modern sociological science; apply modern sociological approaches to the development of problems in their scientific direction

LOC 3 - demonstrate the ability and willingness: to apply modern methodology and the latest techniques in scientific research

LOC 4 - possess the skills of modern methodology and the skills of assessing the general theoretical and sociological foundations of various theories and present their applied perspectives

*Post requisites: TSSP The system of social partnership*

*Optional component 4*

*Course: The system of social partnership*

*Intensity of the Course: 5 academic credits*

*Module Code: ISC - 4*

*Module Name: Information society and communication*

*Prerequisites: TDTSC The development of the theory of social change*

*Purpose:* the formation of undergraduates' ideas about the essence of social partnership as a system of interrelated activities, the object of which is the acute problems of modern society and the functioning of the population, as well as the mechanisms for the implementation of social partnership within the framework of the current legislation of the federal and regional levels.

*Short Description:* it is a system of relations between employees, employers, state authorities and local self-government bodies, aimed at ensuring the coordination of the interests of employees and employers on the regulation of labor and other relations directly related to them.

*Learning Outcomes in EP (LOP):*

LOP 1 - Develops proposals and recommendations for conducting sociological expertise and consulting.

*Learning Outcomes in Course (LOC):*

LOC 1 - the essence of social partnership as a specific phenomenon

LOC 2 - regulatory aspects in the regulation of the formation and development of social partnership

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**

Catalog of elective disciplines

LOC 3 - analyze and summarize information on social partnership issues

LOC 4 - defining the scientific and practical foundations of the concept of social partnership

*Post requisites:*no

*Optional component 5*

**Course: Theories of communicative space**

*Intensity of the Course:* 5 academic credits

*Module Code:* **ISC - 4**

*Module Name:* **Information society and communication**

*Prerequisites:* TDTSC *The development of the theory of social change*

*Purpose:* to form the undergraduate's understanding of the features of speech and non-verbal communication of its varieties, knowledge of the features of the communicative environment (household, industrial, political, trade, public relations, etc.), channels and types of communication (oral, print, audiovisual, virtual and etc.), audiences and communication principles; the ability to use the principles of communication theory in the analysis of communication activities and events (press conferences, exhibitions, seminars, company actions, etc.) and in planning their own activities.

*Short Description:* studying the structure of the communicative act; connection between communication theory and semiotics and linguistics, information theory and hermeneutics, philosophy, psychology; acquaintance with the basic theories of communication; description of the structure of the communicative act in various spheres of communication (intercultural, interpersonal, mass, organizational, etc.); introduction of basic concepts and principles of communication; creation of ideas about the personal aspects of the communicator.

*Learning Outcomes in EP (LOP):*

LOP 1 - Predicts social phenomena and processes to identify socially significant problems and develop solutions based on the use of scientific theories, concepts, approaches and social technologies

*Learning Outcomes in Course (LOC):*

LOC 1 - to form ideas about the types of communication, the principles and postulates of pragmatics that regulate the speech behavior of people, about the types of communication failures, zones of conflict communication, ways to harmonize communicative interaction

LOC 2 - The main directions of linguistic science in the field of communication theory; the most important concepts and terms used in the theory and practice of speech interaction; communication models, elements of the communication process, its structure, functions and characteristics;

LOC 3 - apply the conceptual apparatus of the discipline and various methodological approaches of communication theory to the analysis of educational communicative situations in different spheres and environments of communication

LOC 4 - possess the skills of analyzing communicative situations of different types.

*Post requisites:*no

*Optional component 6*

**Course: Information technologies in social research**

*Intensity of the Course:* 6 academic credits

*Module Code:* **ISC - 4**

*Module Name:* **Information society and communication**

*Prerequisites:* no

*Purpose:* The main goal is to give future specialists theoretical knowledge and to form their practical skills in the creation and application of information technologies to solve management problems, to instill the skills of using information technologies in social sciences and education.

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

*Short Description:* The study of the discipline involves mastering basic knowledge and skills of working with office computer systems; knowledge of the basic provisions governing the organization's information processes, which is the subject of professional training and determines the specifics of the construction and functioning of information systems and technologies in the field of sociology.

*Learning Outcomes in EP (LOP):*

LOP 1 - Uses methods of obtaining and working with information in the professional sphere taking into account modern technologies of the digital economy and information security;

*Learning Outcomes in Course (LOC):*

LOC 1 - the current state and directions of development of computer technology, the main approaches to the use of information technology in solving professional problems of a sociologist;

LOC 2 - use modern information technologies to create databases, conduct computerized surveys, present the goals and results of project activities;

LOC 3 - use search engines of global computer networks to analyze information resources in the social sphere

LOC 4 - methods of information search and processing using modern information technologies.

*Post requisites:*no

*Optional component 6*

**Course: Business Ethics in sociology**

*Intensity of the Course:* 6 academic credits

*Module Code:* ISC - 4

*Module Name:* **Information society and communication**

*Prerequisites:* TDTSC *The development of the theory of social change*

*Purpose:* The main goal is to acquaint undergraduates with business ethics as a scientific discipline, its place in the system of ethical knowledge, basic problems and concepts.

*Short Description:* The course is aimed at developing the professional ethics of sociologists and mastering professional skills. Any professional interaction and communication must proceed in accordance with ethical norms and standards. The ability to build relationships with people, to find an approach to them and their disposition to oneself is the basis of the professional success of a young specialist.

*Learning Outcomes in EP (LOP):*

LOP 1 - Defines the range of tasks, planning and implementation of your own project, including business, in the professional sphere

*Learning Outcomes in Course (LOC):*

LOC 1 - ethical standards of business relations, the basics of business communication, principles and methods of organizing business communications, the essence and methods of managing organizational culture, the causes and methods of managing conflicts and stresses in an organization

LOC 2 - apply the conceptual and categorical apparatus, the basic laws of the humanities and social sciences in professional activities

LOC 3 - apply methods and means of cognition for intellectual development, raising the cultural level, professional competence

LOC 4 - own modern technologies of personnel behavior management (formation and maintenance of the moral and psychological climate in the organization, management of increasing the ethical level of business relations and the effectiveness of business communication, management of organizational culture, management of conflicts and stresses).

*Post requisites:*no

*Optional component 7*

**Course: Scientific project and bases international publications**

*Intensity of the Course:* 6 academic credits

KAZAKH NATIONAL WOMEN'S TEACHER TRAINING UNIVERSITY  
**INSTITUTE OF "SOCIAL SCIENCES, HUMANITIES AND ART"**  
**7M03101 - SOCIOLOGY**  
Catalog of elective disciplines

*Module Code:* **GSCAW - 5**

*Module Name:* **Global social challenges and academic writing**

*Prerequisites:* TDTSC *The development of the theory of social change*

*Purpose:* The main goal is to acquire knowledge about the laws, principles, concepts, terminology, content, specific features of the organization and management of scientific research.

*Short Description:* The study of the discipline allows you to gain knowledge on the main historical aspects, theoretical positions, technologies, operations, practical methods and techniques for conducting scientific research on the basis of modern achievements of domestic and foreign scientists and master the skills of choosing a topic for scientific research, scientific research, analysis, experimentation, data processing, obtaining substantiated effective decisions using information technology.

*Learning Outcomes in EP (LOP):*

LOP 1 - Has theoretical and methodological foundations for the development of the science of pedagogy and psychology, management processes and teaching methods, the essence and content of psychological and pedagogical research

*Learning Outcomes in Course (LOC):*

LOC 1 - disclosure of the progressive essence of science, scientific directions and scientific results, its necessity for the progressive development of society

LOC 2 - acquaintance with the basic theoretical provisions, laws, principles, terms, concepts, processes, methods, technologies, tools, operations for the implementation of scientific activities

LOC 3 - study of standards and norms for the registration of scientific research results, preparation of scientific reports, publications for seminars and conferences

LOC 4 - possession of the methodology of theoretical and experimental research in the field of professional activity

*Post requisites:*no

*Optional component 7*

*Course:* **International scientific publication: impact-factor, RINTs and hirsha**

*Intensity of the Course:* 5 academic credits

*Module Code:* **GSCAW - 5**

*Module Name:* **Global social challenges and academic writing**

*Prerequisites:* TDTSC *The development of the theory of social change*

*Purpose:* The main goal is the formation of modern ideas about scientometric methods among undergraduates, the development of skills and abilities to apply the knowledge gained in the practice of scientific and innovative activities, including for assessing the effectiveness of scientific activities and improving its quality.

*Short Description:* Possession of modern methods and means of obtaining, storing and processing information; the use of basic theoretical knowledge, skills and practical skills for informational and organizational support of scientific and scientific-pedagogical activities.

*Learning Outcomes in EP (LOP):*

LOP 1 - Performs critical analysis of problem situations based on a systematic approach, developing strategies for action

*Learning Outcomes in Course (LOC):*

LOC 1 - basic concepts: scientometrics, scientific citation index, Hirsch index, impact factor, etc.

LOC 2 - find and analyze information about their publications and publications on the topic of their research

LOC 3 - navigate scientometric databases and use built-in tools

LOC 4 - knowledge of methods of searching for scientific information in electronic catalogs, databases and the Internet

*Post requisites:*no
