University graduate attributes:

- Self-guided learners and reflexive practitioners
- Responsible personalities with moral and ethical values
- Professionals with deep subject knowledge and digital skills
- Creative and critical thinkers and excellent team players and communicators
- Adaptive leaders in teaching and learning
- Diverse, inclusive and for equality of opportunity in society

1.3. THE RATIONALE BEHIND THE EDUCATION PROGRAM

One of the priorities of state policy in the field of education is the development of a system of preschool education and training. The understanding of preschool education as a successful start in a child's life made it possible to adopt and implement a number of state initiatives aimed at developing education, including the system of preschool education and training. Expanding access to pre-school education for children with special educational needs in the republic continues and is designated as one of the priority areas in the SPESD for 2020-2025.

From early childhood, it is necessary to ensure equal access to quality pre-school education as a successful start in the life of every child. Within the framework of sustainable development, a priority task has been identified: by 2030, to provide access to quality systems for the development of preschool education and training for all young children, regardless of geography, gender, social status of the family, health characteristics, etc.

In the context of the modernization of Kazakhstani education, the development of mechanisms for adaptive strategies for people with special educational needs is a natural stage associated with the rethinking by society and the state of its attitude towards such people, with the recognition of their rights to provide equal opportunities with others in various areas of life, including education.

The state policy in the field of education is aimed at developing human resources. Only highly qualified, universal pedagogical staff is able to provide good and safe care for the child, as well as its comprehensive development. And taking into account the above and taking into account the need of the labor market and the quality of education, the development of preschool children, the educational program 6B01202 developed by us - "Educator and speech therapist of a preschool organization" provides for the formation of basic and professional competencies of bachelors aimed at the

implementation of scientific, pedagogical, organizational, managerial , research and educational activities.

1.4. DISTINCTIVE FEATURES OF THE EDUCATIONAL PROGRAM
