### 1.3. THE RATIONALE BEHIND THE EDUCATION PROGRAM

*Topically of educational program.* The educational program is developed taking into account the generalization of modern domestic and international experience in this field, author's and collective scientific achievements and educational and methodological developments in the field of specialization, the requirements of employers and the demands of the labor market. One of the priorities of the bachelor of education program in the educational program "6B01101 – Pedagogy and psychology" is a double-degree education.

*Market demand.* According to the Ministry of education and science in Kazakhstan, the network of educational organizations amounted to 18,600, including 10,314 pre – school organizations (4,057 in the city and 6,257 in the village), 7,393 General education schools (including 2,055 urban and 5,338 rural schools (72%), 769 colleges and 124 universities.

There are 7 special schools for children with deviant behavior, 19 centers for the adaptation of minors and one support center for children in difficult situations. According to the Committee for the protection of children's rights of the MES, there are more than 11,788 dysfunctional families in the country, where more than 17 thousand children are raised.

Family support services operate at the centers for the adaptation of minors. They provide advice, legal, psychological, and pedagogical assistance to children and parents who find themselves in a difficult life situation.

In Kazakhstan, there are 31,405 children with special educational needs aged 1 to 6 years. There are 43 special pre-school organizations and 469 special groups in 201 mass pre-school organizations that provide psychological, medical and pedagogical correctional support to 109 teachers-psychologists.

School education implements the principle of equal rights to equal opportunities for all children, regardless of their health status. According to foreign research, children with disabilities are three times more susceptible to various forms of bullying. Therefore, for children with special educational needs, it is important to create a favorable psychological climate. In 2019, the network of psychological and pedagogical correction offices will expand from 152 units to 185, and psychological, medical and pedagogical consultations—from 58 units to 85.

As can be seen from official statistics, at the present stage, there is a high need for specialists in educational psychology.
