of the Board – Rector of NJSC “KNWTTU”
dated “24” 11 2023 year № 225

QUALITY ASSURANCE POLICY NJSC “Kazakh National Women's Teacher Training University” for 2023-2029

The quality assurance policy is based on the mission, vision, values and corresponds to the intentions of the Company, supports its program direction, creates a basis for setting goals and objectives in the field of quality.

NJSC “Kazakh National Women's Teacher Training University” actively participates in international and national rankings, maintaining a leading position in national rankings, such as:

– the TOP 3 rating of educational programs of universities of the National Chamber of Entrepreneurs “Atameken” includes 8 educational programs of the University;

– in the rating of the Independent Agency for Accreditation and Rating (IAAR), the University is on the 2nd place in “Pedagogical Sciences”.

At the same time, the Kazakh National Women's Teacher Training University entered the Times Higher Education World Universities Rankings 2024, which is one of the most popular educational rankings in the world, reflecting the degree of confidence in the quality of education at the university.

The university has successfully passed the assessment based on the new WUR 3.0 methodology, which includes 18 carefully verified performance indicators that measure the work of the university in five areas: teaching, research environment, research quality, industry and international prospects, also strengthens its position in international rankings: Times Higher Education Impact Rankings (1001+ place); QS Asian University Ranking – (701-705th place), QS Asian University-Central Asia University (41st place), Webometrics (10,809th place among 32,000 universities in the world).

The program goal of the University

The University aims to become a hub of innovative methods of teaching, learning and research, as well as the development of rural education in Central Asia.

Our university strives for high standards and recognition in the field of pedagogical education of the country and defines its **mission** in the formation of teachers of leaders who are able to create, develop and disseminate advanced knowledge and values in the field of education for the benefit of the country and the world.

Vision of the University

An intelligent platform that develops teachers who can manage in a rapidly changing world.

The University has identified five program directions of development:

- 1) improving the efficiency and ensuring the quality of the educational process;
- 2) sustainable development of research activities;
- 3) purposeful management of the student's personality development system;
- 4) creation of an inclusive and digital ecosystem of the University in accordance with the best world practices;
- 5) integration of the University into the world educational space.

The implementation of the five directions is carried out in accordance with the University's **Target Indicators**.

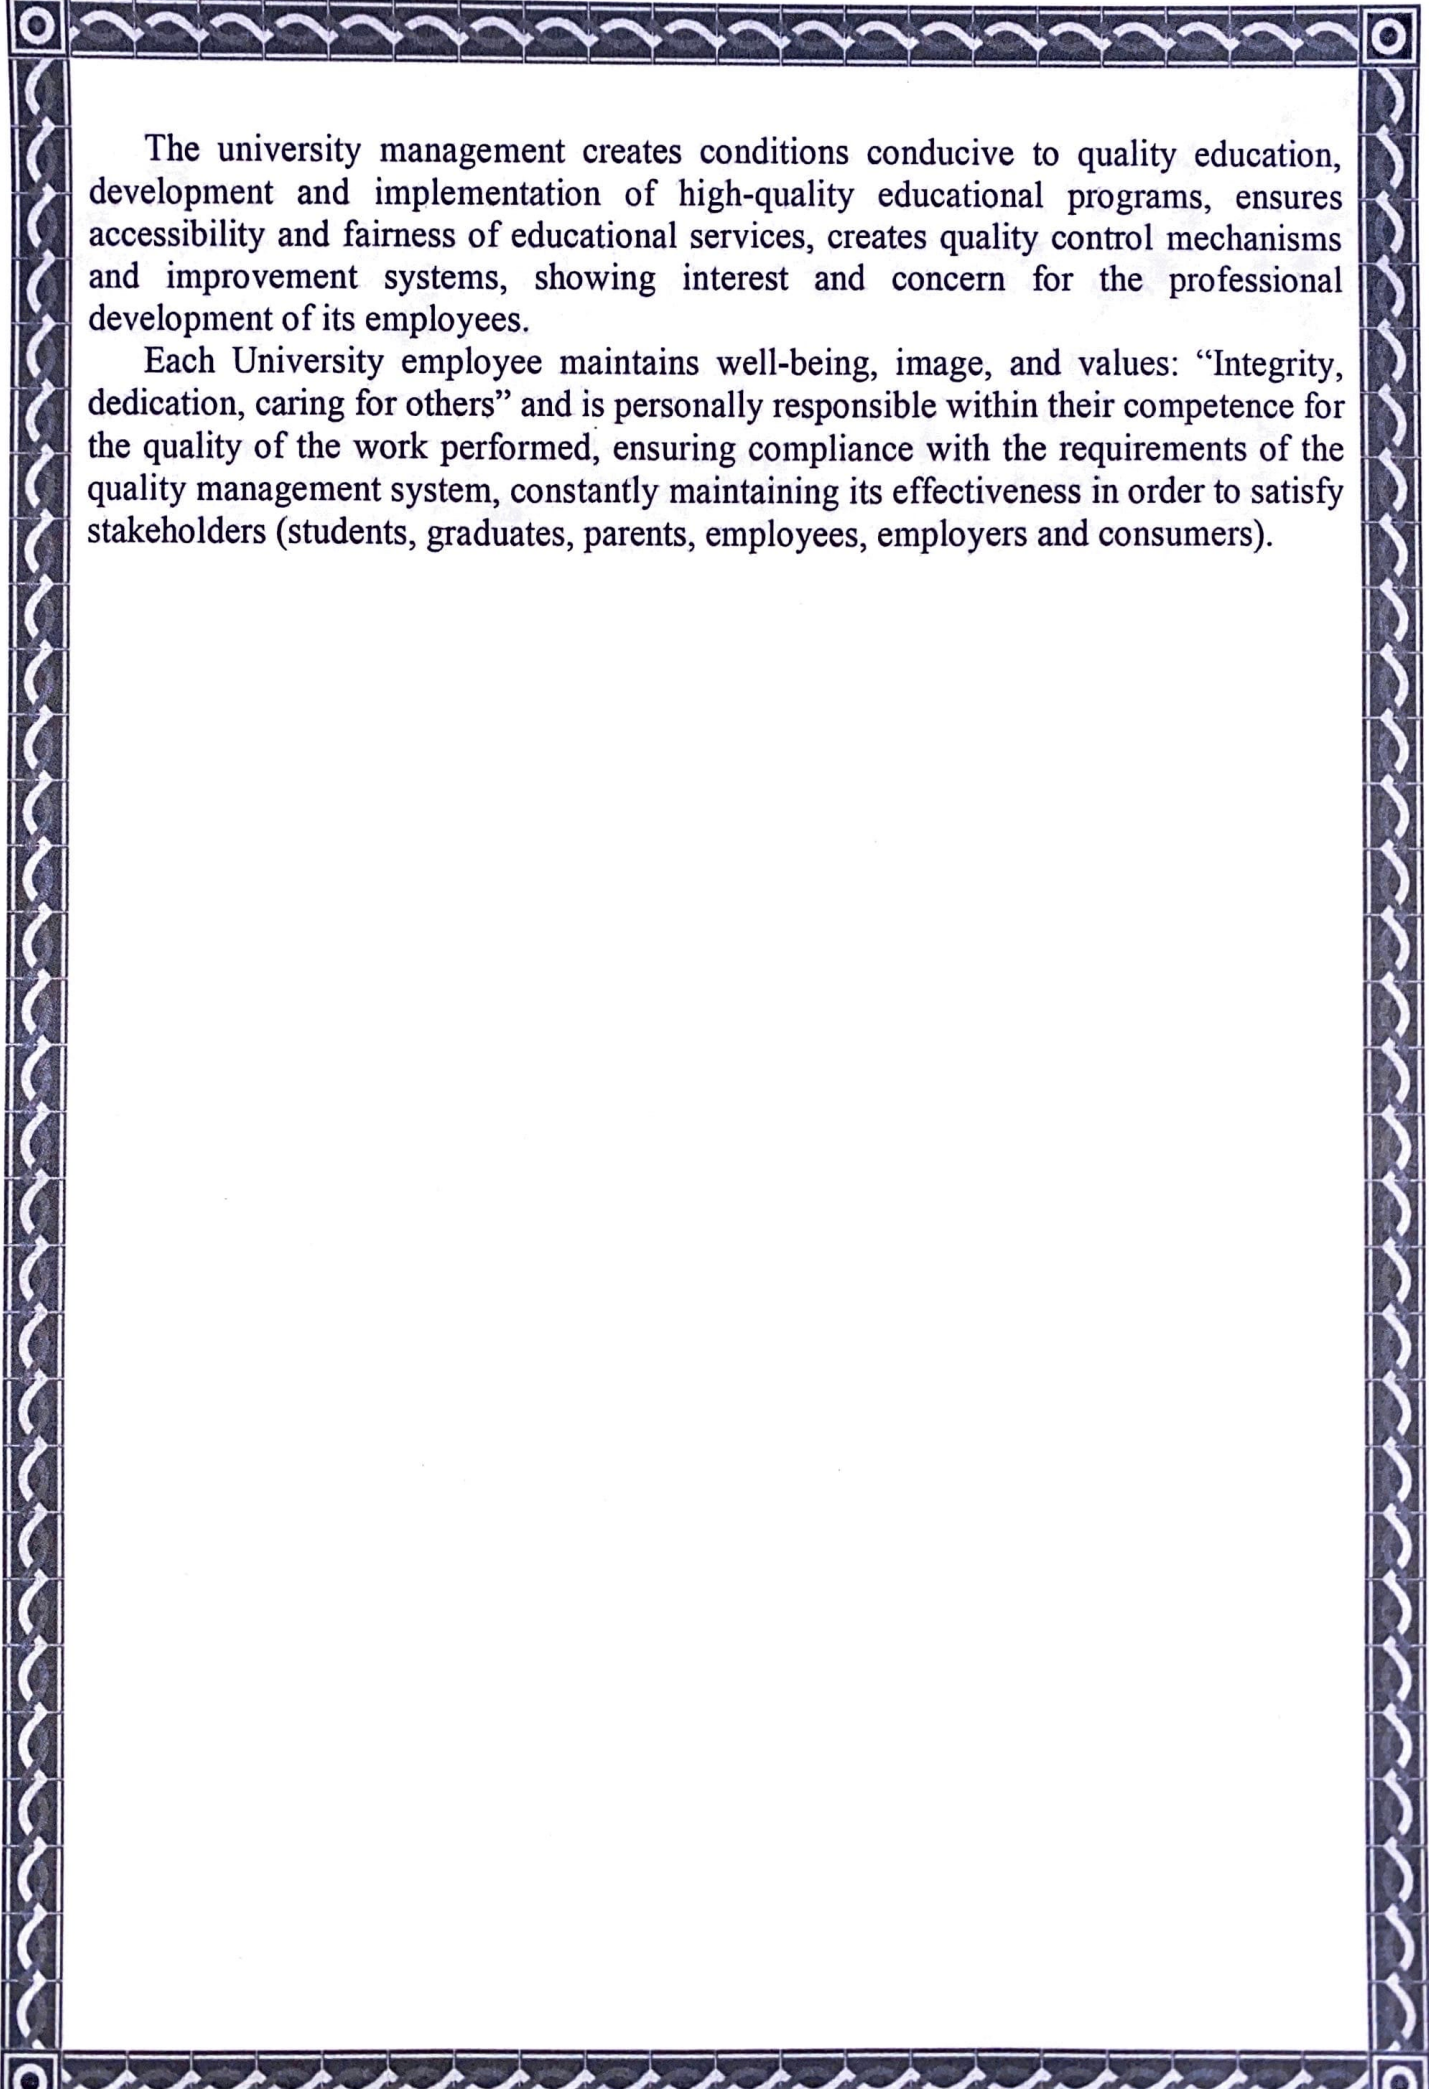

In this regard, the policy of the NJSC "Kazakh National Women's Teacher Training University" in the field of quality is mandatory for the management of the university and the planning of its educational, methodological, social, educational, research and innovation activities.

Principles of the Quality Assurance Policy:

- 1) consistency and continuity of quality improvement in all areas of activity;
- 2) expediency, rationality and collegiality of decision-making in the field of quality assurance;
- 3) orientation to the needs of students and the demands of the labor market;
- 4) transparency of all activities of the university;
- 5) mobility and adaptability to changes;
- 6) staff involvement and responsibility;
- 7) digitalization and use of innovative technologies.

The quality assurance policy is aimed at:

- development and improvement of the corporate (collegial) management system;
- continuous improvement of the quality of educational services and the educational process;
- improving the effectiveness of fundamental and applied scientific research, project activities and startups, the development of the entrepreneurship ecosystem;
- compliance by all participants of the educational process with the Rules of academic integrity and academic culture;
- internationalization of education and integration into the international scientific and educational space;
- improving the effectiveness of cooperation with employers, the expert community, graduates and the participation of students in the work of collegial management bodies;
- providing safe conditions, social support and a comfortable environment for the development of professional and personal qualities of students, teaching faculty and employees;
- formation and development of 21st century skills among students;
- improvement of personnel potential, resource and information support of processes, development and improvement of corporate spirit, dedication and responsibility of students, teaching faculty and employees.

The university management creates conditions conducive to quality education, development and implementation of high-quality educational programs, ensures accessibility and fairness of educational services, creates quality control mechanisms and improvement systems, showing interest and concern for the professional development of its employees.

Each University employee maintains well-being, image, and values: “Integrity, dedication, caring for others” and is personally responsible within their competence for the quality of the work performed, ensuring compliance with the requirements of the quality management system, constantly maintaining its effectiveness in order to satisfy stakeholders (students, graduates, parents, employees, employers and consumers).
