Precautions

Warning: Please do not power cycle the device during system boot up or firmware upgrade. You may corrupt firmware images and cause the unit to malfunction.

Warning: Use only the power adapter included in the device package. Using an alternative non-qualified power adapter may possibly damage the unit.

Overview

The X303 series is a versatile, cost-effective entry-level voip phone. X303/X303P is a regular 100 Mbps IP phone, X303G is a gigabit Internet phone, and X303W supports 2.4GHz & 5GHz Wi-Fi. All four models come with a 2.4-inch 320x240 color display. In addition to four SIP accounts, it also supports POE power supply (except X303), high-definition voice, and 6-way audio conference. The X303 series can be connected to external EHS wireless headphones, which can meet different enterprise application scenarios and provide high-quality user experience.
